### FARM FOR SALE

## The Ten Commandments of the Mail Order House

- You shall sell your farm produce, for cash, where you can, for we buy nothing from you.
- You shall believe in us and trust us; but we do not know you and have no confidence in you.
- You shall send your money to us in advance, so we can buy the goods from the factory with your money. You may have to wait a few weeks; but that is our business method.
- You shall get help from your nearest City or Village to build goo roads, so you may easily haul our goods from the depot; but do not ask help from us—we don't help to build good roads.
- You may buy Church Bells and Altar utensils from us, send the money in advance—that's our rule.
- You shall bet all the help you can from the business men in your neighborhood. Although we may have more profit from you than they have it is against our rules to give to your churches.
- You shall convet your neighbors also to your faith in the form of the form of
- You shall look at the pretty pictures in our catalog as often as you can, so as to strengthen your desire for things you do not need, but which you may order with other goods to save freight. Send us all of your ready cash so that you may not have any left to buy necessities from your home dealers.
- You shall believe us rather than your home business, for we want your trade. We get to be millionaires on your support. Don't be bluffed.
- You shall call on the business people of your vicinity for help and credit if you meet with hard luck or sick-ness. It's your money we want; we don't know you unless your orders are accompanied by cash.

### A Dangerous Campaign

An Increasingly aggressive campaign is being waged in different perist Canada by certain organizations and interests in favor of the adoption by the bounding Government of a policy of export duties, or embargase, on a number of Canadian products, and the list of such products is being added to the campaign progresses. This, too, is instituble because if "protection" to be provided in one case, it is promptly demanded by others, and, turnier, to be provided in one case, it is promptly demanded by others, and, turnier,

imposition of export duties on one article insenably affects other articles Industries.

Canada has for the past forty years experimented with the policy of protein duties on imports, but few people will be found to declare that the ley has proven a nuceess and brought that development of natural resources in the proven a nuceess and brought that development of natural resources of the state of the contrary, manufacturers, artisans, laborers and the great a shounding proposerly which the advocates of high star of some new theorem is the property of the contrary, manufacturers, artisans, laborers and the great for the contrary, manufacturers, artisans, laborers and the great good of the contrary manufacturers, artisans, laborers and the great for the contrary canada are now asked to experiment with the policy of careful and the contrary for them. The people of canada are now asked to experiment with the policy of careful and the contrary for the contrary of the contrary of the contrary of the contrary contrary of the contra

unely, the United States.

Supposing the United States chose to regard such a policy as an "unibundy act" and adopted a policy of retalistion. What then? What would

people to the cotton mills of Canada and of Gazai Dirital if the United States

speed a prohibitive export duly on raw cotton as a reply to the Canadian

position of as export duly on polymonal. Would Canadian and British in
tury be benefited, increased employment provided, added population and

exceed prosperity routh? Canadian and British in
tury of the control of the c

of Oniario and Quebec, not to speak of the average householder and busisman?

And, if Canada should practically prohibit the expert of wheat to the feel States, who could complain it, in ture, the United States proceeded to a step to expert of oranges, barnanas, hemans, raisins, and other articles as the property of the states are supported by the states and the states are supported as expert day on Canadian wheat no only construct the states of the states are supported as expert day on Canadian wheat no to all countries, because Canada must expert its wheat. It cannot mill list often, and were if we could and did, Canadiana could not consume it, I other countries might well say "if you won't let us have any of your carries, we don't want your flour." A general export day on Canada's wheat the property of the states of the states

### Treat Colds Externally

For sore throat, bronchitis or deep chest colds, rub Vicks VapoRub briskly over throat and chest and cover with warm flamel.

Vicks acts in two ways—both direct, obsorbed like a liniment, and inheled as a vapor. A quick relief for the cold troubles of all the family.
